

# Patterned Picasso People

You will need:  
white cardstock or watercolor  
paper

a black sharpie

colorful markers, colored pencils  
or watercolor paint

scissors and a glue stick

black and other brightly  
colored papers  
a metallic gold paint  
marker(optional)

using a pencil draw the shape of your face and neck- add hair and begin to divide face into uneven sections and add features- eyes, ears mouth...

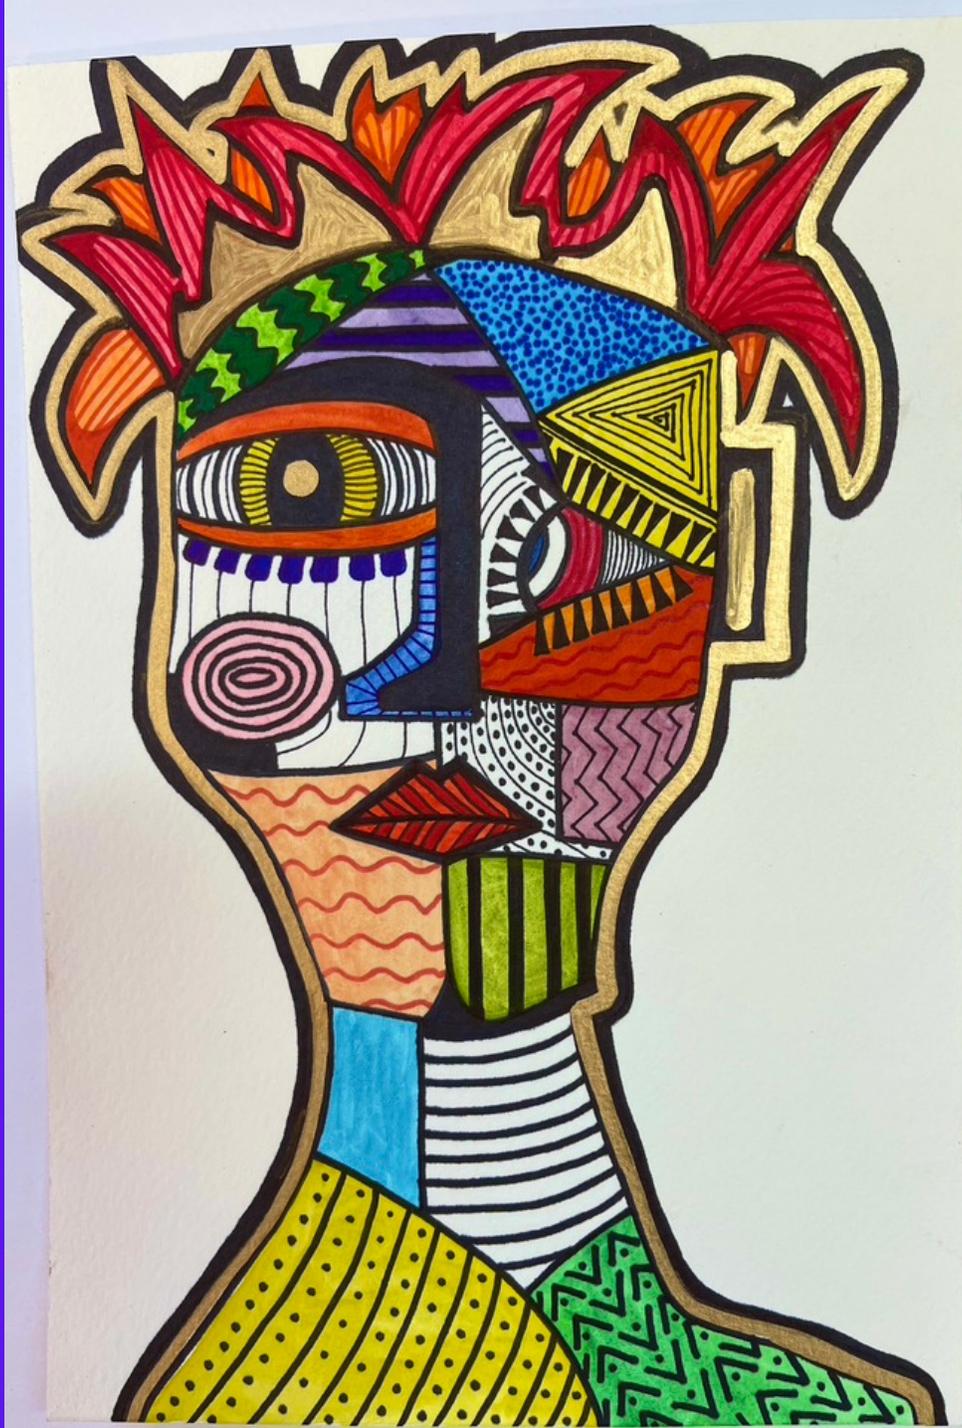

using paint ,colored pencils or markers ,color in your sections-leave some white areas too for balance.

Now, cover your pencil outline of each section with a black sharpie line this will make each section "pop".

Start patterning each block differently layering in pattern and color throughout they should all be unique.

If you have a metallic marker pen-  
outline the entire outside next to the  
black line and add pops of metallic in  
some sections. Now do another thick  
black sharpie line outside of the  
metallic outline.

If you'd like you can continue to outline and decorate the rest of the paper-or leave it white

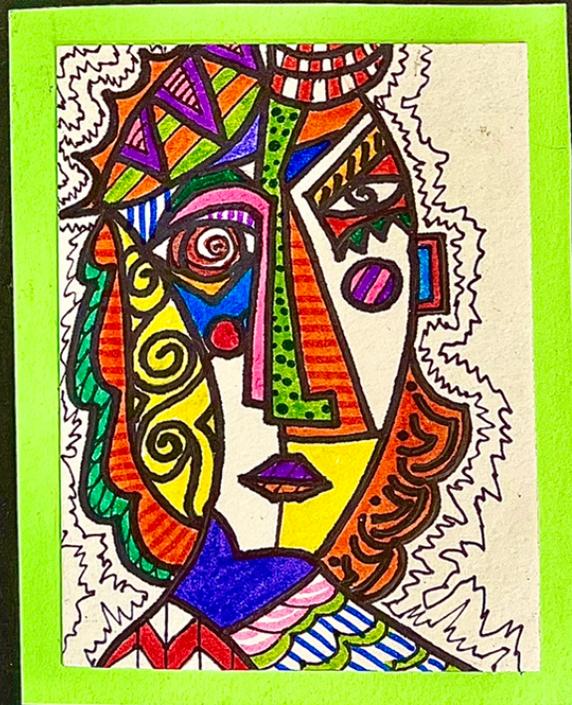

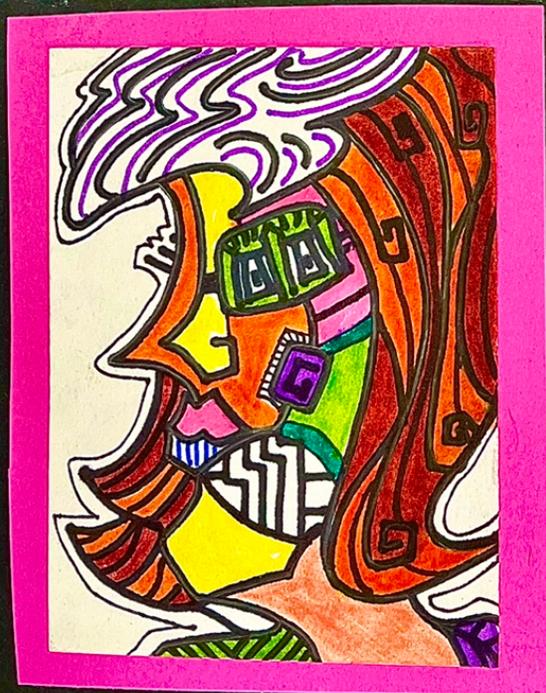

Glue onto a black background-or  
add other pops of color with  
other paper and then glue to  
black paper.

Try some mini portraits too!

MUCH LOVE FROM HARVEY

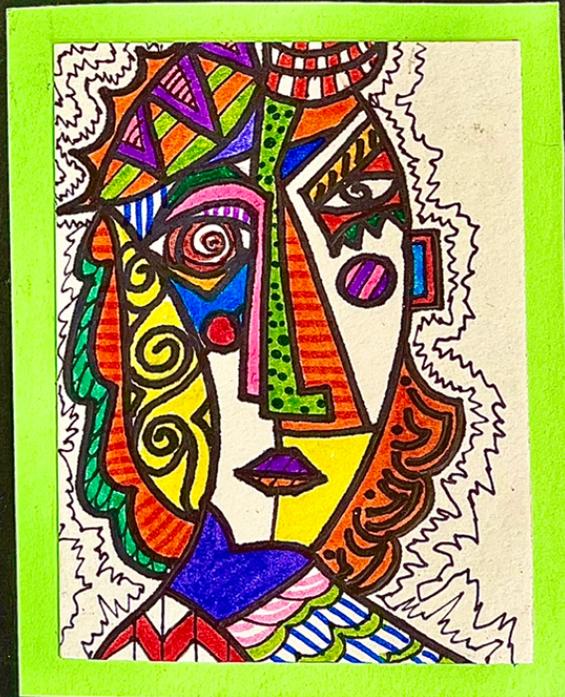

Directions>>>

cut white  
paper into 4  
smaller  
pieces and  
draw faces  
in pencil

Like before,  
cover pencil  
lines with  
black sharpie  
and add  
patterns.

color in with bright colors and patterns  
and glue onto colored paper or black  
background-HAVE FUN !!!!!!!
